New York Stock Market

New York, May 21.—Union Pacific. Reading and Steel, the stock market leaders, moved within a range of a point or less to-day. Traders sought in the early session to inaugurate a bull movement on the strength of the flotation of the New York City and Chinese bond issues. While the cables reported some improvement in senti-ment abroad, on account of the heavy over-subscription of the Chinese loan, and London bought stocks in this mar-ket, there was no corresponding change of feeling here. Efforts to put up the market were made short by the decline in New York City bonds below the average price of 100.152, obtained by the city, heavy sales being made at 100 and a few at 92 7-8. Small gains in stocks were lost, and the day came to a close with most of the prominent shares under yesterday's first prices. final prices.

The need of a new financing by rail-

roads and other corporations is heav-ler than for many years past.

An unfavorable feature of the day's

trading was renewed liquidation in certain quarters of the list. The Petroleum shares were especially heavy. Pressure was again applied to the St. Louis and San Francisco bonds. The 5s broke nearly five points to 67 1-4, selling lower than the fours.

The bond market was under pres-United States bonds were unchanged

New York, May 21.—Money on call steady, 2 3-4m3 per cent; lowest, 2 3-4; ruling rate, 2 7-8; closing bid, 2 3-4; offered at 2 7-8.

Time loans steady; sixty days,

COTTON MARKETS.

New York May II—While there was little or no apparent change in the generally favorable average of crop and weather news the cotton market made a steadler showing today and closed steady at a net advance of from 567, points. The market opened steady at an expected but there seemed a steady at a net advance of 586 points in lesponse to better, cables than expected, but there seemed to the influence of yesterdays break and prices cased off 1 or 5 points right after the call. Prospects for further showers in the eastern boil, which is still said to be dry in sections of the throlinas and Georgia, were considered favorable, and little attention was paid suggestions of too much rain in parts of the western belt, but the market soon steadled up again on foreign trade buying and covering by Wall Street or uptown shorts. July was reported to be rather easter to buy than recently, and soid only 6 or points above the closing figures of yesterday. Some of the July select however appeared to be buying new crop positions, suggesting the undoing of old straidiles and the late deliveries showed net gains of from \$50 points from the best, but in spire of apparent duliness, buyers were not hacking when the view of the same more what heavier and prices sagged off 4 or 5 points from the best, but in spire of apparent duliness, buyers were not hacking when noted that one broker found it possible to dispose of 10.09 bales of Derember Within a range of 3 points. Cleeing prices were within a point or two of the best. Private cables reported a quiet and stady market in Liverpool while houses with both Liverpool and Continental connections were among the buyers around the local ring.

Cetton, steady, middling, 12.00, gross receipts, 2.690 bales, sates, 209, bales, stock.

Cotton steady midding 1:00 gross receipts 2:602 bales, sales, 2:005 bales, stock protection of the continent of the continent

New Orleans, May 21.—The cotton market had a very good tone in the early trading and took on a moderate advance in the face of good crop accounts. In the aftermoon the market became more or less nervous and prices were not any too well maintained Scalping lones wanted their profits and the ring did not absorb their offerings any too readily. A feature of the day was the report that spinners were good buyers of the new crop months, and that the Continent was a rather heavy trader on the long side in the American markets. The weather map indicated warm weather in the cotton region

CHICAGO GRAIN MARKET.

Chicage, Iil., May 21.—More life and strength developed in the wheat market to-day than any previous time for weeks. The chief reason was the receipt of unfavorable crop reports from Oklahoma and trom Seuthern and Western Kansas, Closing prices were buoyant, 5afe, to 15c, over last night. Corn made a net gain of 15c, over last night. Corn made a net gain of 15c, to 240 igc. Oats in the end were up 25c, to 340 igc. and provisions at a decline of 25-620c. Cash wheat drooped, but expert sales and Southern Kansas reports of crop deteriorating brought about a sudden rally. Close was strong with July at 905c, a net rise of 15c. Corn followed wheat, closed steady at 25c, net higher for July at 55c.

BOND ISSUE SAVED

All Are Subscribed, but There Is Warning Against Further 41/2 Per Cent. Investments.

BY BROADAN WALL. New York, May 21 .- New York City vas able to raise its \$45,000,000. Thanks to the civic spirit of the bankers that bid par or more for the bonds when they knew perfectly well that the funds might be employed in other directions at a higher rate of in-

The result sought for has been acomplished. The city's credit has been maintained, but, at the same time, fair warning has been given to other municipalities that it will be exceeding-ly inadvisable to seek fresh loans on a 4 1-2 per cent basis,

Viewing the transaction from a speculative point, Wall Street feels disappointed. There is certainly no fresh stimulation for speculation, and the point has again been brought forci-

bly home that money is hard to obtain on a purely investment basis.

To-day's stock market was exceed-ingly dull, with a good tone in South-ern Pacific, Union Pacific, Steel, Great Northern and Chesapeake. Reading moved within a point, and closed with a slight loss.

Amalgamated developed some heavi-ess, and sold from 75 to below 74; on lisappointment over the trade situaion. It is believed that much of the netal shipped abroad has not found a parket, and that this may be forced or sale unless conditions improve very hortly, as it is a menace to the sta-

shortly, as it is a menace to the sta-billity of prices that are now ruling in 7-8 cents a pound. Publicity has again been given to the formation and flotation of Call-fornia Petroleum, and, as a result, the price dropped from 41 1-2 to 37. Other industrials were weak in symathy with this decline, some scoring

Other industrials were weak in sympathy with this decline, some scoring rather sharp reactions.

The reassuring statement issued by President Winchell regarding the St. Louis and San Francisco checked the selling in the shares, but the general lien 5 per cent bonds dropped from 72 to 67 1-4, which indicated that not much care is placed upon the financial stability of the property.

News from abroad was conflicting. Despite the heavy over-subscription reported for the Chinese loan, consols were lower and prices easier on the London Stock Exchange. London bought a few thousand shares in our market, and foreign cables expressed disappointment that a higher price was not obtained for our city bonds. Rumors are current that mare will be an early issue of a large French government loan, and negotiations are pending for a Mexican loan, which is pending for a Mexican loan, which to to be offered at 90 to run ten years and to carry 6 per cent interest.

Lotisville and Nashville showed a net increase in earnings for the second week of May of 9 1-2 per cent, and Kansas City Southern for April had an increase of 23 per cent, while Wheeling and Lake Erie a deficit of \$135.264.

Wall Street is now turning its at tention to a probable decision of the Supreme Court of the Minnesota rate case Monday next, and the publication of the details of the new Union-Southern Pacific segregation plan.
